

## **Release Form for Posting of Photos of Self and Radiation-Related Health Information for Publication**

---

INND and [www.trishapritikin.com](http://www.trishapritikin.com) are dedicated to using on and offline educational tools to raise awareness of the human toll of the nuclear age. However, we urge all community members to exercise caution when submitting information online about their personal health conditions.

*By revealing your radiation-related illnesses on and offline, you are making this information public and searchable through the Internet. If you have not done this publicly before, we urge you to consider the impact of this action before submitting photos. If you have a loved one affected by radiation-related illnesses, please do not reveal their name and/or relationship to you unless they have given you permission to do so. If you decide to participate, your voice will be a powerful force in raising awareness – but we urge you to do so with all the facts at hand about the Internet.*
